PROFESSIONAL SUMMARY

Video editor with 1 to 3 years of experience editing gameplay videos, talking-head content, and short-form edits for YouTube and social media, using Adobe Premiere Pro and After Effects for editing, motion graphics, color grading, sound design, and thumbnail creation. Brings a background in IT and technical support, with hands-on skills in HTML, CSS, JavaScript, and Python that I used to build and maintain my own portfolio site, daviropes.com, entirely from scratch. Comfortable integrating AI tools into the editing pipeline, including Adobe Firefly for generative assets and ElevenLabs for voice and audio, and using Frame.io for client review and collaboration. Seeking to grow as a professional Video Editor, bringing raw footage to life through clear, engaging stories.

WORK EXPERIENCE

Freelance Video Editor
Independent / Self-employed

2023 - PRESENT

- Edited gameplay videos with dynamic pacing, sound design, and motion graphics for YouTube and social media.
- Edited talking-head and vlog-style content, including audio cleanup, jump cuts, and visual storytelling.
- Delivered short-form and long-form edits optimized for audience retention across platforms.
- Handled color grading, thumbnail design, and full end-to-end editing workflow for each project.

IT Support Assistant
SINCO Sinalização e Construções Indústria e Comércio Ltda.

2024 - PRESENT

- Provided technical troubleshooting and end-user support across the organization.
- Organized and documented internal processes to improve efficiency.
- Developed strong communication and problem-solving skills through daily client interaction.

PROJECTS

- Produced original video projects for a personal portfolio, showcasing editing range and style.
- Edited video content for social media and YouTube, optimized for audience retention.
- Designed visual identities and thumbnails to strengthen channel branding and click-through rate.
